CAREER OBJECTIVE

Creative, self-motivated and highly skilled engineer with +6 years of experience in software development and testing using [Automation, Manual] tests, leveraging a range of modern AI tools (Claude, Codex, Playwright MCP, Antigravity, Cursor) to accelerate and strengthen testing workflows. Experienced in leading teams toward success and coaching both junior and senior team members. Eager to join and support the testing team in an innovative environment through my problem-solving, communication and leadership skills to achieve my goals by working in a leading organization whereby I can develop my work experience, skills, and qualifications in addition to growing my career ladder to be part of the organization's growth and success.

WORK EXPERIENCE

Senior Test Automation Engineer | Professional Developer

Adfinis

04/2025 – Present
Remote - Switzerland

- Developed scalable unit tests for backend systems using JUnit5 and Java
- Built stable, reusable test automation frameworks to test web applications using web tables (grid handling)
- Developed integration tests using REST-assured to validate the entire system's API endpoints, and integrated them into the CI/CD pipeline
- Created stable, secure CI/CD pipelines using GitLab CI/CD to run automated scripts at scheduled, regular intervals
- Reduced regression cycles from hours to minutes through optimized workflows
- Automated test execution on scheduled intervals with failure-analysis reporting

Senior Test Automation Engineer

Cyshield

09/2024 – 04/2025
Hybrid - Cairo

- Designed stable E2E testing frameworks for web and mobile applications, including WATCH IT
- Reduced regression cycles from hours to minutes through optimized workflows
- Mentored the team and transferred knowledge to build stable, scalable test scripts that simulate real end-user journeys

Senior Test Automation Engineer

_VOIS

08/2022 – 09/2024
Remote - Czech Republic

- Analyzed user stories, use cases, and requirements for validity and feasibility
- Executed all levels of testing: System, Integration, Regression, and Automated
- Prepared test cases, test scripts, and test data using Jira and the X-ray plugin
- Designed and developed automated test scripts as needed using Selenium and Protractor
- Refactored existing test frameworks to be cleaner and more scalable
- Analyzed test results on Jenkins and maintained the automated test suites
- Collaborated closely with developers to analyze and plan each user story, then designed the corresponding unit tests
- Created and maintained API tests using REST-assured, establishing reliable and stable test frameworks
- Created and maintained E2E tests using Selenium, Cypress, and Playwright across multiple languages (Java, JavaScript, and Python)

Testing Engineer

_VOIS

07/2021 – 07/2022
Remote-Germany

- Analyzed user stories, use cases, and requirements for validity and feasibility
- Executed all levels of testing: System, Integration, Regression, and Automated
- Created automated test scripts for mobile applications (iOS and Android) using Appium
- Prepared test cases, test scripts, and test data using Jira and the X-ray plugin

External Instructor

ITI 

11/2021 – Present

Remote - Egypt

- Teaching programming courses in Java, C, and C++
- Teaching source control and configuration management using Git, GitHub, GitLab, and Bitbucket
- Teaching unit testing for Java and Python developers using the JUnit5 and Pytest frameworks

EDUCATION

9-Month Diploma (Software Testing and Quality Assurance Track)

Information Technology Institute (ITI) 

10/2020 – 06/2021

Smart Village Branch,
Egypt

Bachelor's Degree in Computer Science & Engineering

Faculty of Electronic Engineering (FEE), Menoufia University 

09/2015 – 05/2020

Menoufia, Egypt

- Department: Computer Science & Engineering
- Cumulative Grade: Very Good with Honors (80%) — Ranked 3rd
- Graduation Project Grade: Excellent

TECHNICAL SKILLS

Programming Languages

Java, Python, C/C++, Go

Scripting Languages

JavaScript, TypeScript, BashScript

Test Automation

- Selenium WebDriver, Playwright, Playwright MCP, Playwright CLI, Cypress, Protractor
- JUnit, TestNG, Pytest, Mocha, Chai, Jest
- TDD, BDD

APIs, Performance and Security Testing

Postman, REST-assured, Apache Jmeter, K6, LoadRunner, BurpSuite, cURL

Source Control

Git, GitHub, GitLab, BitBucket

Mobile

Appium

Quality Assurance

Automotive SPICE, CMMI, ISO-9001

DevOps

Linux, Docker, Kubernetes, GitLabCI/CD, GitHubActions, Jenkins, ArgoCD, NodeJS, Maven, PIP

CERTIFICATIONS

Agile Scrum Master

Certificate code 3613468

Professional Agile Test Automation ICP-ATA

Certificate code 242-30704

ISTQB CTFL-MAT

Certificate code: 210606001

ISTQB CTFL-AT

Certificate code: 210404001

ISTQB CTFL

Certificate code: 210202001

SOFT SKILLS

Languages

- Arabic: Native
- English: Fluent
- German: Basic
